## CONTRACT TRIALS SERVICE

For nearly 70 years PGRO has been involved in legume research and is recognised as the UK centre of excellence for work with peas and beans. The team has many years of experience and have unique industry insight and contacts.

GEP and GLP accredited

## LOCATION

We have two large geographically separate trial areas and year on year have over 40 other sites throughout England and in Scotland.

## SPECIALISED EQUIPMENT

Well maintained and specialist field trials equipment includes: self-propelled and tractor mounted plot drills, Wintersteiger plot combines, compressed air hand held spray equipment, 6m and 12m tractor mounted sprayers, Hege seed treating equipment and static pea viner.

## ACCREDITATIONS

ORETO Certified

GLP Compliant

## ADDITIONAL SERVICES

- A full range of seed tests for peas, beans and other crops is available.
- Soil tests to predict the level of risk from foot-rot, in advance of drilling.
- Variety evaluation of peas and beans. Including agronomic and disease tolerance characteristics.
- Evaluation of other vegetable crops, including onions, parsnips, carrots and brassicas.
- Private trial visits and internal technical seminars.
- Training and up-date courses at outside venues and at PGRO Conference Centre.
- A recently re-furbished, well-equipped conference centre and smaller meeting rooms are available.
